Caring for the Children of Cambodia COR 2 & G tag

Come explore Cambodian culture and health through a close-up and hands-on study abroad experience!

Course Description: These course will provide a transcultural experience through pre-immersion classroom instruction and an international immersion field experience. Students will study Cambodian culture, religion, history, and health to better prepare them for the travel experience.

Travel Itinerary:

Students will provide health screenings and education to children at various urban and rural sites across the country.

Cultural Experiences can include: Angkor Wat Temple, theater and performance arts activities, shopping markets, Genocide Museum, cooking classes, tour the floating village, and swimming in tropical water falls.
